Welcome to *SunCafe!*

Every item on our menu is designed to delight and amaze your taste buds as well as encourage health and nutrition. Our made-to-order dishes tend to take a little extra preparation, but will be well worth the wait, we promise!

Our menu is plant-based and dairy-free and most can be made gluten-free. Though we are experienced with handling special dietary needs, please bear in mind our kitchen uses many different types of tree nuts and items containing gluten on a daily basis.

We use the freshest organic ingredients to make our dishes from scratch for the liveliest food you will ever experience. Organically farmed produce avoids the use of toxic pesticides, which are linked to many diseases/health issues, and organic food is GMO-free. Also by using seasonally available produce, your meal will be at the peak of its nutritional value and taste.

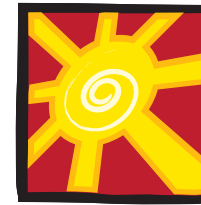

In early 2011, we were voted the Best Raw Food Restaurant in Los Angeles and Third Best in the World, by BestOfRaw.net. We were also voted best Raw Restaurant in L.A. at the World Vegan Day festival.

Please enjoy the unique dining experience we've worked so hard to create.
